

This university manages students, courses and enrollments. Each student has a unique identifier, a full name and an institutional email address. Each course is identified by a code (e.g. CS-101), has a descriptive title and carries a number of ECTS credits. The university offers courses in computer science, mathematics, physics, engineering and economics.

Students enroll in courses each semester (2026-01 or 2026-02) and receive a grade in the Italian 18-to-30 scale, where 30L is the highest mark and NS means non-satisfactory. A student may enroll in several courses and a course may have many enrolled students; each enrollment is recorded with the semester and the resulting grade.
